

# 3D Depositor NeraFlex

The NeraFlex 3-axis depositor offers the highest flexibility and various product possibilities thanks to the freely movable depositing head.

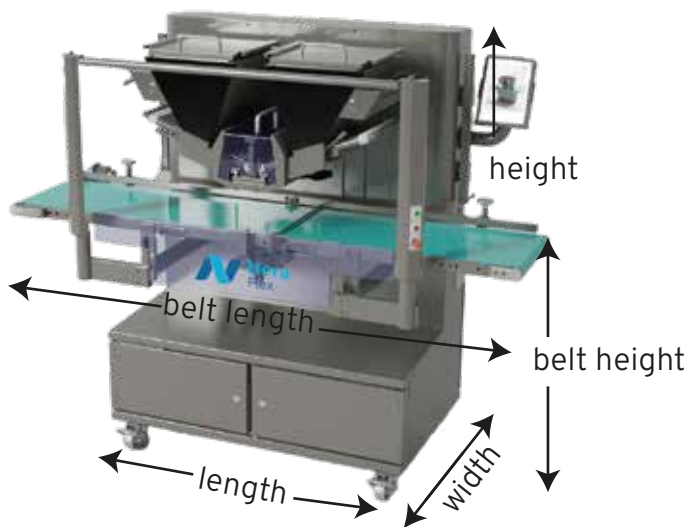

## Nera App

Create and modify your recipes with the Nera App on the iPad delivered with the machine or remotely on your computer.

The 3D dosing head with flexible nozzle spacing offers maximum flexibility for different products:

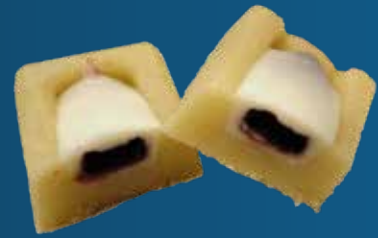

- Decoration of pralines
- Decoration of hollow figures
- Synchronisation with cooling tunnels
- Filling of premade extruded products
- Moulding of complex geometric shapes

### Dimensions & Figures

Length:	1200mm
Axes:	Z-Axis: 100mm X-Axis: 150mm Y-Axis: 50mm
Width:	750mm without attachments 900mm with attachments
Height:	1650mm
Weight:	500 kg
Belt length:	2000mm
Belt height:	900mm- 1000mm
Belt direction:	Left → right / right → left
Mould width:	135mm / 175mm / 275mm / 295mm / 380mm / 425mm
Connection:	CEE 16A / 400V / 50Hz
Hopper Volume:	100% = 18l

Due to the modular design the machine can be adapted to your needs. Whether you use it as a standard One-Shot depositor, decorator or to place it directly above the cooling tunnel for freedressed products, the NeraFlex is your universal tool.

## Decoration

on products or into moulds

3 Decor points  
4 nozzles  
Capacity:  
3'500 products/h

1 Decor swirl  
9 nozzles  
Capacity:  
7'500 products/h

## Filling marzipan products

Synchronisation with extruder belt

30gr Marzipan bar  
12gr of filling  
7 nozzles  
Capacity:  
75kg/h or  
2'500 products/h

15gr Marzipan praline  
3gr of filling  
2x9 nozzles  
Capacity:  
162 kg/h or  
10'000 products/h

## Freedressing

Cat tongues 3.5gr 50% filling

4 OS Nozzles  
Belt width: 240mm  
Capacity:  
15 kg/h or  
4'500 products/h

9 OS Nozzles  
Belt width: 320mm  
Capacity:  
35kg/h or  
10'000 products/h
